

PRODUCT TECHNICAL SHEET

COMPOSOL BURY

ORGANIC AMENDMENT AND FERTILIZER

BENEFITS

- Provides organic matter
- Increases the soil water-retention capacity
- Improves the structure and productivity of the soil
- Supplies the nutrients essential for growth of plants and development of soil micro-organisms

FERTILIZING VALUE

Parameters	Total value (average)	Available value	
		spring/summer	Fall
Total kjeldahl N (kg/mt)	3,5 à 6,8	0,4 à 1,4	0,3 à 1,3
Phosphorus (P ₂ O ₅) (kg/mt)	5,7 à 12,3	4,3 à 9,2	2,7 à 5,8
Potassium (K ₂ O) (kg/mt)	1,0 à 2,0	1,0 à 2,0	0,7 à 1,8
Bulk density (mt/m ³)	0,6 à 0,8		
Dry solids (%)	35 à 50		
Organic matter (%)	45 à 65		
C/N	15 à 30		

SPECIFICATIONS

- Compost made from municipal biosolids, agri-food sludge and ligneous matters
- BNQ certified, Type B (CAN/BNQ 0413-200/2016)
- No authorization required
- Periodic quality control

INSTRUCTIONS

- Application rate of 5 to 15 mt/ha (2 to 6 mt/acre)
- Apply with a precision or conventional fertilizer spreader
- Follow agronomic recommendations listed in the PAER
